

MOHAMMAD ASHMIR ABBASI

MERN STACK DEVELOPER

☎ 7999804752 ✉ moashmir7003@gmail.com 🔗 /in/Mohammad-Ashmir-Abbasi 🌐 /MohammadAshmir786

PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with hands-on experience in building scalable web applications, REST APIs, and secure authentication systems. Strong in **backend logic, database design, and performance optimization**. Proven ability to deliver production-ready features, debug real-time issues, and collaborate in Agile environments. Focused on writing clean, maintainable code and solving real-world problems.

CORE SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frontend: React.js (Hooks, Context API), Redux Toolkit, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Development, MVC Architecture

Databases: MongoDB, MySQL, Mongoose, Sequelize

Authentication & Security: JWT, Passport.js, Encryption

Tools & Platforms: Git, GitHub, Postman, Swagger, Vercel, Netlify

Practices: Agile, Debugging, API Testing, Performance Optimization

PROFESSIONAL EXPERIENCE

Software Developer Intern, CoderVu - Indore, Madhya Pradesh (Mar'26 – Present)

- Developed and integrated RESTful APIs for scalable backend systems
- Debugged and optimized application performance in real-time environments
- Collaborated with cross-functional teams to deliver production-ready features

AI/ML Intern (remote), Unizztech - Nagpur, Maharashtra (Oct'24 – Nov'24)

- Built and optimized CNN-based models for real-world applications
- Assisted in integrating AI models into user-facing systems
- Improved model performance and deployment readiness

AI/ML Intern (remote), Infosys Springboard Internship 5.0 (Jun'24 – Aug'24)

- Developed AI models and implemented real-world use cases
- Strengthened problem-solving and analytical thinking skills
- Worked on collaborative AI-driven projects

Web Development Intern (remote), Tech Alpha - Bangalore, Karnataka (Apr'24 – May'24)

- Built a secure password generator using cryptographic logic
- Developed a dynamic task management system using JavaScript & jQuery
- Created an interactive age calculator with responsive UI

EDUCATION

Bachelor of Technology (B.Tech) – *Information Technology*

Malwa Institute of Science & Technology, Indore

2022 – 2026 (Expected)

CERTIFICATIONS

- 1) **Software Engineer Intern**, *Hacker Rank*
- 2) **Python Fundamentals**, *Coursera*
- 3) **Frontend Developer (React)**, *Hacker Rank*
- 4) **SaWiT.AI Challenge Winner**, *Guvi HCL*
- 5) **Best Performer Certification**, *UnizzTech*
- 6) **Machine Learning Fundamentals**, *Talent Battle*
- 7) **AI & Machine Learning Training Program**, *Infosys Springboard*

PROJECTS

PricePulseAI - AI Powered E-Commerce Platform ([Live](#), [Code](#))

- Developed full-stack MERN application with secure JWT authentication
- Implemented product, cart, wishlist, and order workflows
- Integrated AI features for **recommendations and price prediction**
- Managed global state using **Redux Toolkit** for optimized performance

Care Horizon - Hospital Appointment System ([Live](#), [Code](#))

- Built secure booking system with authentication and scheduling logic
- Reduced booking time by 30% through optimized workflow implementation

NexKey - Secure Password Manager ([Live](#), [Code](#))

- Developed encrypted password storage system using MERN stack
- Implemented **encryption and secure database storage**
- Focused on security, usability, and modern UI design

SyncHomes - Full Stack Landing Page & Admin Panel ([Live](#), [Code](#))

- Built admin panel for managing clients, projects, and contacts
- Implemented full-stack CRUD operations

Fingr.ai - Handwritten Digit Recognition ([Live](#), [Code](#))

- Built CNN-based prediction system with **99.93%** accuracy
- Integrated ML model with real-time frontend interface

LEADERSHIP & ACTIVITIES

CDC Student Coordinator – *Placement Cell (MIST)*

- Organized placement drives and technical sessions
- Mentored students on web development and industry skills
